Web Development 10

Instructor: Drea Laj
e-mail: drea.laj@sd68.bc.ca
phone: 250-713-9606

Introduction

Web Development 10 is an entry level course for students wishing to learn more about website and web-based application development. Students will practice HTML and CSS while creating a basic website using a third party website creator. Students will also complete three inquiry projects: what makes a website good, what websites are best for their application, and what jobs are out there in this field.

Topics in …

- Writing for the Web
- HTML
- Design Principles
- Planning Tools
- Basic Websites
- CSS
- Websites
- Jobs
- Final Project

Assessment

Mastery is encouraged. Students who wish to improve their work and resubmit are to invited to discuss their options with their teacher.

When the authenticity of student work is in question, the teacher reserves the right to base final grades on teacher supervised assignments and assessments.

Attendance

Please be aware that Island Connect K -12 does not have a general attendance requirement. However, it is in your best interests to make a habit of checking in with Drea Laj (your teacher) at least once a week – face to face, by email, phone or through the virtual office link above. Past learners have stated that such contact promotes engagement with the course materials and serves to motivate them to complete the work in a timely fashion.

Completion Timeline Expectations

Successful learners typically finish within four months of initial enrollment in this course. COMMIT to achieving your goals! There is a suggested calendar in the course. Get a calendar out and plan how you and when you will complete each lesson in the first two units immediately. If you mess up, do your best to catch up, but change the timeline right away to reflect this change and, then, do your best to never let yourself fall behind again.
